Syahna Titan Kantata

Professional Summary

Full-stack web & mobile developer with 3+ years of experience building and maintaining business applications. I work across the stack: React and Next.js on the frontend, PHP (Laravel, CodeIgniter) on the backend, and React Native for mobile. I've built internal systems for a Kalbe Group company and delivered company profile websites and e-catalogs for freelance clients, handling everything from requirements to deployment. Clean code, clear documentation, and reliable communication.

Work Experience

Freelance Full-Stack Developer
September 2025 - Present

Responsibilities :

- Designed and built responsive company profile websites that strengthen clients' online presence and credibility.
- Developed a dynamic e-catalog platform that lets clients manage and showcase their products in a structured way.
- Managed projects end-to-end: requirement gathering, UI/UX design, development, deployment, and maintenance.

Full-Stack Developer – KalGen Innolab Sains International (Kalbe Group)
August 2023 – Present

Responsibilities :

- Built internal web applications with React, Laravel, and CodeIgniter: courier attendance, lab sample tracking, sales visit reporting, HR management, customer complaint handling, master data, and the company profile site.
- Translated Figma designs into responsive, user-friendly interfaces with Tailwind CSS and Bootstrap.
- Integrated REST APIs between frontend, backend, and internal services.
- Fixed bugs, improved performance, and wrote user guides and test reports.

Technical Skills

- Frontend: React.js, Next.js, React Native, JavaScript, TypeScript, HTML, CSS, Tailwind CSS, Bootstrap, jQuery, AJAX
- Backend: PHP (Laravel, CodeIgniter), Node.js, REST API
- Database: MySQL, MariaDB, PostgreSQL
- Tools: Git, GitHub, Postman, DBeaver, Figma
- Languages: Indonesian (Native), English (Conversational)

Education

- Bachelor of Information Systems (in progress), Universitas Terbuka, March 2024 - Present
- Focus: Software Development, Database Management, and Information Systems Analysis
